

COMPOUND DESCRIPTION AND HISTORY 2008

HARD	HISTORICAL	CURRENT	NEW / Test	DESCRIPTION
		892		Hard Silica Compound - Pickup Slick
		A70		Ultra Hard compound for saloon car circuit slick applications.
		A33		Ultra Hard compound for saloon car circuit slick applications.
	A21	A29		Very Hard compound for saloon car circuit slick applications.
	A42	A64		Hard compound for saloon car circuit slick applications.
		A31		Hard compound for saloon car circuit slick applications.
	A4 A19 A25			
		A60		Medium compound for saloon car circuit slick applications.
	A5 A20	A30		Medium compound for saloon car circuit slick applications.
			308	Medium/Soft compound for saloon car circuit slick. Medium Hard compound for Gt circuit slick applications.
		A46		Duratec Contract Only
		A37		Hard compound for single seater circuit slick, Soft compound for saloon car circuit slick and Hard compound for saloon car circuit wet applications.
		A56		Hard compound for sportscar.
	A6 A17		214	Hard compound for single seater circuit slick, Med/Soft compound for GT circuit slick.
		A47		
	A10 A18	A24	314	Medium / Hard compound for single seater, sportscar and sidecar circuit slick applications
		A54	236	Medium compound for single seater, sportscar and sidecar circuit slick applications
	A7	A41 A11		Medium Soft compound for single seater, sportscar and sidecar circuit slick applications
		A32		
	A1 A12 A26	A53	365 Test	Soft compound for single seater and sidecar circuit slick applications.
		A43		Hard compound for single seater circuit wet, Soft compound for sportscar circuit slick and saloon car circuit wet applications.
	A2 A14 / A22	A27		
		A50		Very Soft Sportscar Dry Compound. Euro GT Hillclimb
		A49		Medium compound for rallycross, single seater circuit and sportscar circuit wet applications.
		A38		
		A15		Soft compound for hillclimb slick and single seater circuit wet applications.
	A3			
		A39 A39R		Soft compound specifically for Rallycross purposes ONLY
		A35		
	A9 A16 A36 A40	A91	343 Test	Soft compound for hillclimb slick, single seater circuit and sidecar wet applications
		A89		Very soft compound for hillclimb slick / wet. Special order only.
SOFT		A45		Ultra soft compound for hillclimb slick / wet applications. Special order only.
